100 SUNREEF POWER
Best for: Eco-conscious owners

For owners looking for an eco-friendly alternative, Sunreef Yachts has the answer with its line of electric catamarans. Exhibiting at the Monaco Yacht Show is the new *100 Sunreef Power*, a luxury catamaran that's designed to embody elegance, stability and safety. The yacht, which is powered by solar panels and features entirely customisable interiors, has a generous, light-filled main salon, a full-beam al fresco lounge and dining area, and a sunken lounge in the bow area. Owners can choose to outfit her with a spa pool and level out the aft platform to create a large beach club. With the *100 Sunreef Power*, the world is your oyster.

The *100 Sunreef Power* electric catamaran is entirely propelled by solar panels.
